

Press Release

Malta Chamber of SMEs welcomes launch of Malta Vision 2050

The Malta Chamber of SMEs welcomes the launch of Malta Vision 2050 and the opportunity to contribute to a national roadmap that will shape the country's economic, social and environmental direction in the decades ahead.

As the recognised voice of small and medium-sized enterprises, the SME Chamber stresses that small businesses and sole traders must remain at the centre of this vision. SMEs and micro enterprises constitute the backbone of Malta's economy, representing the vast majority of businesses, generating substantial employment, and driving innovation across multiple sectors.

Any vision which seeks to strengthen Malta's competitiveness must place this important contributor firmly at its core.

The SME Chamber emphasises that Malta Vision 2050 must translate into practical, measurable and sustainable outcomes. Policies cannot be purely ambitious or publically appealing but also economically viable, proportionate and achievable.

The Malta Chamber of SMEs looks forward to engaging constructively with stakeholders to ensure that Malta Vision 2050 delivers tangible results for the business community and secures long-term prosperity built on resilient, competitive and future-ready SMEs.
