

Annex 3 – Data Migration

The Contractor shall collect, process and report relevant information gathered during the implementation of the GO4CIRCULAR project activities:

- Company name and contact details
- Sector and business profile
- Production processes and resource use
- Waste streams and by-product management
- Supply chain information
- Current sustainability practices
- Innovation opportunities identified
- Marketing and communication practices
- Training and coaching attendance records
- Implementation progress and recommendations

All information collected shall be treated confidentially and processed in accordance with GDPR requirements and the instructions of the Malta Chamber of SMEs.
